## POPL 2025

Welcome to the website of the 52nd ACM SIGPLAN Symposium on Principles of Programming Languages (POPL 2025). POPL 2025 will take place in Denver, Colorado.

See the [Call For Paper](#) for detailed information.

The annual Symposium on Principles of Programming Languages is a forum for the discussion of all aspects of programming languages and programming systems. Both theoretical and experimental papers are welcome on topics ranging from formal frameworks to experience reports. We seek submissions that make principled, enduring contributions to the theory, design, understanding, implementation, or application of programming languages.

The symposium is sponsored by ACM SIGPLAN, in cooperation with ACM SIGACT and ACM SIGLOG.

*The Craft of Writing  
Effectively*

**Larry McEnerney**

One day  
his mother said  
when Pierre  
climbed out of bed,  
"Good morning,  
darling boy,  
you are  
my only joy."  
Pierre said,  
"*I don't care!*"

10

"I can eat you,  
don't you see?"  
"*I don't care!*"  
"And you will be  
inside'of me."  
"*I don't care!*"  
"Then you'll never  
have to bother—"  
"*I don't care!*"  
"With a mother  
and a father."  
"*I don't care!*"

30

His father asked,  
"Are you all right?"  
Pierre said,  
"I am feeling fine,  
please take me home,  
it's half past nine."  
The lion said,  
"If you would care  
to climb on me,  
I'll take you there."  
Then everyone  
looked at Pierre  
who shouted,  
"*Yes, indeed I care!!*"
